Did you know?

- About 9 million Canadians are signed up to the Do Not Call List
- Telemarketers are using the DNC list to call consumers!
- Canadians have lost millions in mass marketing fraud this year and telephone fraud is the top solicitation method used
- More and more telemarketing calls are made to mobile phones every day
- Canadians want the DNC rules to work!
- Mobile phones **do not** have Caller ID

PrivacyStar Gives You Control of Your Phone

BlackBerry and Android owners in Canada use PrivacyStar to:

- Block unlimited number of calls
- Perform Caller Lookup
- Report violators of the Do Not Call List to the CRTC
- Do Not Disturb - Forward all calls to voicemail while sending a custom text message
- Block texts – Android only
- Identify callers as phone is ringing

PrivacyStar Offers What Network Carriers Don't

- Perform Caller LookUp to find out who is calling you
- Real-Time Caller ID
- Comprehensive and unlimited Call Blocking
- Power to stop telemarketers calling
- Capture all information needed for filing a complaint

PrivacyStar Features

- Block individual numbers, entire area codes, all private or unknown numbers or use wildcard characters
- Identify unknown callers, including most 1-800 numbers
- Share blocked numbers with other PrivacyStar users
- SmartBlock: Proactively block top blocked numbers according to PrivacyStar user activity
- Effortlessly report DNC violators with one keystroke
- Manage PrivacyStar account through either a synchronized web portal or directly on your phone – it's your choice!
