simplehuman®

rectangular sensor can

Description:
I've got good sense: Innovation only makes sense if it's in sync with your needs. A sensor can shouldn't open unexpectedly or close before you're finished with your task. That's why we developed multi-sense. It reacts and adapts to your behavior. Don't you wish you refrigerator was this smart?

Features:
- multi-sense: Our sensor adapts to your tasks. It's touch-free technology that's in sync with your needs.
- ready mode: The trigger zone is a focused space directly above the lid — easy to reach, but precise enough to avoid false triggers.
- task mode: Once the lid is open, the trigger zone extends to become more sensitive to activity, so the lid won't close before you're finished.
- stay-open mode: After 3 seconds of continued activity, the lid automatically opens wider and switches to a 30-second stay-open mode — great for longer chores.
- robust internal hinge: the strong, die-cast steel hinge is built to last, but still sleek enough to place the can right against the wall
- auto-clutch system: Overstuff the can, slam the lid down, or even pop it open with your hand. The patent-pending clutch system instantly disengages the motor to prevent damage, and then seamlessly restores touch-free movement.
- energy efficient: efficient power management gets the most out of your batteries (up to 12 months with 6 high-quality alkaline C batteries, not included), or plug the can in with our power adapter (sold separately)
- easy access battery compartment: no fumbling under the lid when you need to change the batteries
- odorsorb™ filters: natural charcoal filter is integrated into the lid to neutralize odors without harmful chemicals
- hide excess bag: bag tuck® opening tucks away excess bag so it stays neatly out of sight
- easy moving: nylon discs under the can make it easy to slide and gentle on floors
- fingerprint-proof: fingerprint-proof finish resists smudges to keep stainless steel shiny
- recycling solution: the recycler 48L sensor can can includes two inner buckets to sort trash and recyclables

Sizes and Dimensions:
- 40L: 17.4 x 12 x 25.1 (W.D.H.)
- 48L recycler: 20.2 x 13 x 25.1
- 55L: 20.2 x 13 x 25.1

US MSRP:
- 40L: $225.00
- 48L recycler: $275.00
- 55L: $275.00

Warranty:
- 5-year warranty
