TEKELEC

www.tekelec.com

Found at the heart of most global networks, Tekelec's market-leading, carrier-grade network solutions enable the secure and instant delivery of calls and text messages for more than one billion mobile and fixed-line subscribers. The company's session management solutions allow telecom operators to manage the diverse applications, devices, technologies and protocols, across existing and evolving networks, to meet the demands of today's consumer. Tekelec uniquely ensures telecom operators have a clear migration path to SIP-based IP networks, and whatever comes next, with the flexibility to deploy solutions at a pace dictated by their business needs. For more information, please visit www.tekelec.com.

Solutions

- » **Signaling and Session Control** - Utilizing its unsurpassed signaling expertise, Tekelec has developed SS7, SS7 over IP and SIP solutions that allow operators to achieve efficiencies, save costs, easily roll out new services and transition to the next-generation, IMS-based network.
- » **Number Portability** - Tekelec offers the most widely selected solutions for number portability around the world, including porting for fixed, mobile (IS-41, GSM, and CDMA) as well as converged (PSTN and IP) networks.
- » **Flexible Routing** - Integrated, flexible routing solutions provide highly efficient mobile network management for resources such as home location register (HLR) and equipment identity register (EIR) databases.
- » **Messaging** - Tekelec enables the delivery of a wide range of messaging services, from short message service (SMS) to advanced multimedia, while reducing costs and simplifying operations and maintenance.
- » **Service Assurance** - Tekelec provides the network visibility operators require to manage the network more effectively—ensuring efficient traffic routing and high-quality service delivery across hybrid networks.
- » **Revenue Assurance** - Operators use Tekelec's revenue management capabilities to gather business-critical intelligence to make informed decisions, identify sources of revenue loss and gain an in-depth understanding of customer behavior.
