**FATHER'S DAY GIFTS FOR THE GARAGE GUY**  
*Easy-to-Use "CHECK ENGINE" Light Tool and More*

**FOUNTAIN VALLEY, Calif.** – Whether you're shopping for a full-blown garage guy, an occasional tinkerer or a "wanna be" weekend mechanic, we have an automotive gift idea that's sure to please. Equus Products, Inc., offers these Father's Day gift ideas:

- **INNOVA® 3100 CanOBD2 Diagnostic Tool.** Find out why the "CHECK ENGINE" light illuminated on 1996 & newer cars, light trucks, SUVs and minivans with this hand-held OBD2 code reader. Just plug it into the vehicle's universal connector (usually found under the dashboard), push a button and get the same information your mechanic takes hours to pull in about 10 seconds. If any trouble codes are present, they are shown on-screen in a selection of one of three languages (English, French or Spanish). It's great to use before going to the mechanic, getting an emissions test, taking a road trip, buying a used car or attempting repairs on your own. The top-selling 3100 is available at more than 14,000 retail locations, including Wal-Mart, Sears, O'Reilly and other stores near you. Also look for the affordable INNOVA® 3030 OBD2 CarReader™ for consumers. Suggested retail price: under \$99.

- **INNOVA® 3320 Auto-Ranging™ Digital Multimeter.** This handy, feature-packed tool is ideal for quick and easy automotive and household electrical testing. Its auto-ranging function eliminates the guesswork of dialing in electronic measurement ranges. Its 10 MegOhm circuitry is safe for use on vehicles. And its color-coded LEDs let you quickly check a battery's state of charge. It also features patented ergonomic design with wrist strap for hands-free testing; attachable test leads, holders and stand; and rubber corner guards for drop protection. Suggested uses include: household outlets, fuses, wiring, automotive circuits, fuses, vehicle battery and charging systems, and much more. A staff of ASE Certified Technicians supports this product, which is U/L listed. Suggested retail price: under \$30.

## FOR IMMEDIATE RELEASE

### FATHER'S DAY GIFTS FOR THE GARAGE GUY – 2-2-2

- **INNOVA® 3420 Smart Test Light™.** Whether dad has a boat, ATV, personal watercraft or multi-purpose utility trailer, chances are you've hooked up your trailer and found one or more of the lights were not working. What now? With the sturdy INNOVA® Smart Test Light, you can quickly troubleshoot these and other problems. It helps to identify if there is voltage and/or ground on wiring and connectors, fuses, battery cables, sensors, switches and more. Connects using a cigarette lighter / power plug and detachable twin alligator clamps with 6-foot test leads. The Smart Test Light also features an ergonomic grip and transparent handle to identify connections. Suggested retail price: \$25.

- **INNOVA® 3721 Battery & Charging System Monitor.** If dad's ever missed a meeting or delayed a trip because the family car wouldn't start, this product is for him! It's a safe and easy battery and alternator quick-check tool. It easily plugs into the cigarette lighter to let you monitor your battery and charging system voltage from the comfort of your vehicle. It features an LCD display with bar graph to measure voltage, color-coded LEDs to identify the battery's charge status, and pivoting head for easy viewing. Don't let a dead battery slow you down – catch it before it's too late. Available at a retailer near you. Suggested retail price: \$25.

### About Equus Products, Inc.

Fountain Valley, Calif.-based Equus Products, Inc., is an ISO 9001: 2000 certified company, and a leading manufacturer and distributor of test equipment, gauges and tachometers for the automotive aftermarket. Celebrating a quarter century since being founded in 1982, the company markets and distributes its line under the EQUUS® brand to major retail and WD accounts throughout the U.S. and Canada. In 1990, Innova Electronics Corporation was acquired for research, design and product development. Products developed under this division carry the INNOVA® brand. The company's automotive test equipment is sold at more than 14,000 retail outlets in North America. The company's products are supported by a team of ASE Certified Technical Support via toll-free 800 number and website. For more information about these and other great gift ideas from INNOVA®, visit [www.Equus.com](http://www.Equus.com), or 2009 National Hardware Show Booth #: 36425.
